Home Address : 10 Epameinonda str, 16674, Athens, Greece

Summary

Results oriented executive with a proactive attitude towards problem solving. Proficient in managing and leading multinational teams of different backgrounds & skill-sets. Expert in formulating Project Execution Plans and Method Statements, with considerable hands-on knowledge & experience in oil and gas projects (especially tank farms) and solid waste treatment plants. A team player and efficient communicator at all corporate levels. Interested in joining a vibrant energy construction company to actively participate and lead energy infrastructure and construction developments in EMEA and especially the SE Mediterranean region.

Work Experience

AUG 2019 - Today	: Senior Consultant (Tendering Department) at ARCHIRODON Group NV
Role/Achievements	: Consulting on Saudi & ME prospects & operations. Proposals & Tenders valued at 1Bn\$ with a success rate of 50%.
JUN 2017–JUL 2019	: Project Manager at JV “Strimonas” (Archirodon-Intrakat-Envitec)
Project	: Serres Municipal Solid Waste treatment plant (63.000 tpa).
Role/Achievements	: Led project construction (~25m €) resulting in the project’s completion on time, budget and scope and its nomination as one of the best 6 utilities projects in EMEA
MAY 2014-MAY 2017	: Construction Section Head and Project Manager at ARCHIRODON N.V.
Project(s)	: Two Municipal Solid Waste treatment facilities of capacity 63.000 & 105.000 tpa, employing Mechanical Biological Treatment technology in North & West Greece (Serres & Ioannina), valued at ~ 300m €.
Role/Achievements	: Spearheaded the collaboration of the various stakeholders i.e. JV members, financial institutions, legal and technical advisors, designers etc. in the verification of tender assumptions and projects financial viability (cost-benefit analysis) that led to the finalization of the designs and contract (signing) recommendation.
JUN 2012–APR 2014	: Construction Section HEAD and Lead Engineer at SAUDI ARCHIRODON Ltd.
Project	: Upgrading of the marine terminal and construction of new metering facilities for the Yanbu Export Refinery (YASREF).
Role/Achievements	: Technical evaluation, financial negotiations and procurement of major project equipment & materials for the USD +120m EPC project. Led a multinational team of 100 (erectors & welders) in Yanbu (KSA) and achieved the completion of the Mechanical, Equipment & Structural Steel scopes of the “NGL Terminal Facilities Package (SP7)” project on time and within budget.
